

# Designing the next generation Open Optical Network

GN4-P2 JRA1-T1 workshop

Kurosh Bozorgebrahimi

Sunday 10/06/2018 09:00-17:30, TNC18, Trondheim

# Agenda

- 0: 0900-0910: Opening and Introduction
- 1: 0910-0940: Open optical Networking – a Cornerstone of Multilayer Integration, Gert Grammel (Juniper Networks)
- 2: 20940-1010: Spectrum Sharing. Is it technical mature for deployment? What to be aware of?, Marc Lyonnais (Ciena)
- 3: 1010-1040: Acacia's role in Open Networks, Alan Gibbemeyer (Acacia)
- 1040-1100: Coffee break

- 4: 1100-1130: The future of open optical networks – what are the steps and will we get there eventually?, Alexander Niepel(Coriant)
- 5: 1130-1200: How Open Is Your Line System?, Geoff Bennett, (Infinera)
- 6: 1200-1230: Open optical systems – just because you can do it doesn't mean you should, Jonathan Homa (ECI Telecom)
- 1230-1400: lunch break

- 7: 1400-1430: Juniper perspective on future Open Optical Network, Domenico Di Mola (Juniper Networks)
- 8: 1430-1500: Microservice Controller platform for Open Disaggregated Transport Networks, Dominique Verchere (NOKIA Bell Labs)
- 9: 1500-1530: The role of SDN/NFV in open optical network, ADVA, Niall Robinson (ADVA)
- 1530-1600: Coffee break
- 10: 1600-1630: DCI in transport network and GEANT test result and experiences , Guy Roberts (GÉANT)
- 1630-1700: Panel debate
- 1700: End of session
